Photo 1 The first locally-developed pure electric green smart bus with a light body structure and highly efficient motor system at the exhibition.

Photo 2 Mr. Wong Kam Sing, Secretary for the Environment (fourth from left) and Ms. Anissa Wong Sean Yee, Director of Environmental Protection (first from right) showed keen interest in the environmental development of China Dynamics, and posed for pictures with Mr. Cheung Ngan, Chairman of China Dynamics (third from right) and other guests.

Photo 3 Mr. Wong (first from left) and the guests board the green bus of China Dynamics and exchanged views with the management of the Group.

Photo 4 Its self-developed permanent magnet synchronous motor with an integrated controller system is a world-leading vehicle motor, suitable for new energy and conventional modified vehicles. The motor adopts the advanced metallurgy of light aluminium alloy body structure and the superior technology of total vehicle control system. The Group has collaborated with the Hong Kong Government to develop this first-ever local electric bus brand, which is set to be a highly efficient environmentally-friendly new energy vehicle.

— The End —

About China Dynamics (Holdings) Limited (SEHK: 476)

China Dynamics (476) is a provider of new energy vehicles technology integrated solutions. It owns a leading proprietary core technology for lithium polymer solid batteries and permanent magnet synchronous motor with an integrated controller system. In February 2014, the Group has secured a tender from the Hong Kong Productivity Council for the design, fabrication and supply of permanent magnet synchronised motor systems and battery-powered systems for the first-ever locally branded electric buses in Hong Kong.
